

# FITTING THE 19" RACK EARS

## 1) CHECK THE CONTENTS:

Please carefully check that both the Rack Ears are present in the kit. They are not identical – one is for the left side and one is for the right.

1x ZED1802RK19 Rack Ears (AA8558-L/R)  
6x M4 x 8 Pan Pozi screws (AB4836)

1x ZED 18 19" Rack Ears Fitting Instructions (AP8786)

## 2) TOOLS REQUIRED:

1pt CROSS POINT SCREWDRIVER

## 3) ENSURE POWER IS DISCONNECTED

Before attempting to fit the Rack Ears, remove all power to the unit and disconnect any signal cables where necessary.

## 4) FITTING THE RACK EARS

To fit the Rack Ears first remove the 4 screws from each plastic side trim and take off the side trims. Save the screws in case the side trims need fitting in the future.

## 5) FIXING THE RACK EARS

Fit the rack ears to the left and right sides using the six M4 x 8mm screws provided with the kit. Do not use the 12mm screws that were used to fix the side trims.

## 6) RACK INSTALLATION

Secure the assembly to the rack using suitable rack screws and washers.

## **19" RACK EARS OPTION**

This option enables you to fit 19" Rack Ears to ZED 18/16FX mixer.

**Kit Part No: ZED1802-RK19**

User option to fit 19" Rack Ears to one ZED 18 or 16FX unit.
