

Novacore

Digital Wireless Platform

NCR1

Single-Channel Digital Receiver

The NCR1 is the entry point into the AUDIX Novacore digital wireless ecosystem — purpose-built for small systems, portable rigs, and single-channel installs. Reliable digital UHF performance, AES-256 encryption, and AUDIX sound quality in a compact, rack-mountable form factor.

SKU: NCR1 | MAP: \$399 | In Stock · Now Shipping

KEY FEATURES

Simple Setup

Front-panel controls with graphical display and jog dial. IR sync pairing and intuitive menu navigation.

Digital UHF

High-performance RF front end. Image and spurious rejection > 85 dB.

Tuning Flexibility

48 MHz tuning range for operation in crowded RF environments.

AES-256 Encryption

Secure digital receiver with fast IR sync pairing.

Software Control

Provides comprehensive monitoring and frequency management.

Single-Channel

Dedicated one-channel receiver — ideal for small systems, speaker support, and portable installs.
