

## EVF G2 Front Load 12"

---

- New EV transducers and low-loss crossover, next-gen low latency FIR presets with flat phase response, and stable 6.4  $\Omega$  minimum impedance
- Indoor and outdoor (FW) options available
- Consistent pattern control ensures seamless arrayed performance
- Removable Euroblock connections and built-in NL4-connection, and new mounting option for full-range models
- Updated grille design withstands high-SPLs while wet, and is fully front-serviceable

Introducing the long-anticipated second-generation of EVF loudspeaker from Electro-Voice. EV's most versatile point-source lines for short to medium-throw applications launched in 2008 is now updated to perform even better in all point-source projects.

From mid-sized stadiums, performing arts spaces, and theaters, to high-SPL music venues or houses of worship, EVF G2 has been fully redesigned with modern components and processing to elevate the quality of an installation at a better value than ever before.

While EVF G2 inherit external dimensions from its 1st-generation equivalent, every other aspect has been redesigned from scratch for better performance. Completely new in-house EV transducers, low-loss crossovers, EV's highest performance HF horns ever, flat-phase FIR presets with <10ms of system latency, new ergonomic wiring input panels, and so on.

Every detail of each model has been carefully considered to deliver not just a light refresh but a reimagining of how much performance is possible from a two-way loudspeaker at this price class.

EVF-12 G2 is a high-performance full-range loudspeaker, available in five coverage patterns: 60° x 40°, 60° x 60°, 90° x 50°, 90° x 90° and 120° x 60°.

Provided in black and white colors, EVF-12 G2 also offers 10 fully-weatherized loudspeakers certified to IP55. This water and dust protection is valid with the moisture resistant cover installed and a minimum 5° down tilt. Fully weatherized models are also able to handle full exposure to the elements, including high salt marine environments.

The new single-step polyurea paint provides a consistent, higher performance exterior across multiple product families. The brand new white paint offers reliable UV performance and bright RAL9003 color.

Suspension options include U-brackets, wall brackets, eyebolts and rigging kits. Four Omni-mount points on the rear of the enclosure also provide on-cabinet mounting option for compatible accessories.

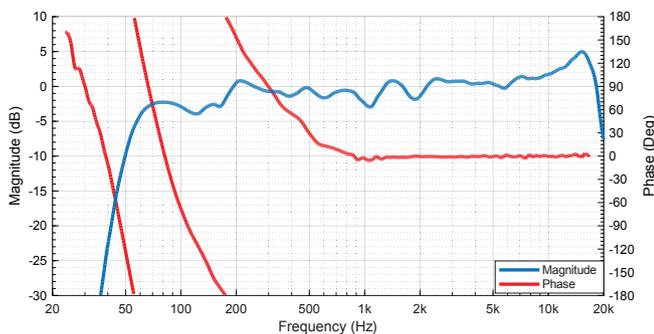

# Technical specifications

## EVF-12/64 models

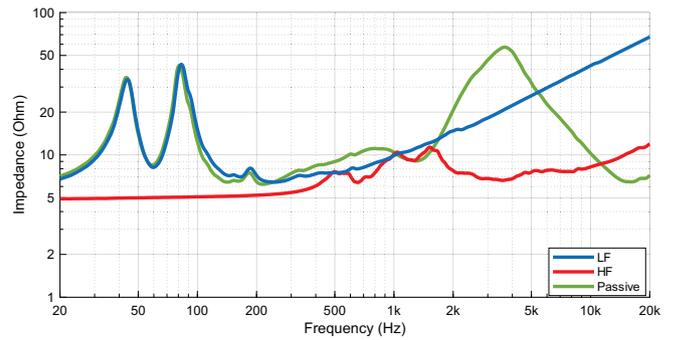

Frequency response (-3 dB) <sup>1</sup>	57 Hz - 18 kHz
Frequency range (-10 dB) <sup>1</sup>	48 Hz - 20 kHz
AES75 Linear SPL <sup>2</sup>	115 dB
AES75 Peak SPL <sup>2</sup>	134 dB
Coverage angle H x V	60° x 40°
Power handling (continuous)	400 W
Power handling (program)	800 W
Peak input voltage <sup>3</sup>	130 V
Peak input voltage (HF) <sup>4</sup>	62 V
Peak input voltage (LF) <sup>5</sup>	130 V
Nominal impedance	8 Ω
Minimum impedance	6.4 Ω
Preset high-pass	50 Hz
Connector type	10 AWG Euroblock NL4
Suspension points	(22) M10 hard points
IP rating <sup>6</sup>	IP55
Operating temperature	-20° C - +50° C
Storage temperature	-40° C - +60° C
Color	Black (RAL9005) White (RAL9003)
Dimensions (H x W x D)	30.3 in x 16.0 in x 16.4 in
Dimensions (H x W x D)	769 mm x 407 mm x 417 mm
Weight	67 lb
Weight	30.5 kg
Shipping weight	78 lb
Shipping weight	35.5 kg
Included hardware	Dual gland nut cover plate "Horn-rotated" label sticker

<sup>1</sup> Full-range preset, measured in full-space (4π)  
<sup>2</sup> Measured per AES75-2023  
<sup>3</sup> Passive  
<sup>4</sup> Bi-amp HF  
<sup>5</sup> Bi-amp LF  
<sup>6</sup> Only FW models in outdoor, wet, or salty environments
