

Thank you for purchasing the PB23 Mic Power I 48 Volt Phantom Power Supply. This unit is designed and manufactured to provide 48 volts of clean dc power for your favorite condenser microphone.

- Studio
- Live
- Installation

... anywhere you need 48 volts of clean, pure phantom power.

The PB23 is a 48 Volt microphone phantom power supply. The unit uses a 100kHz switching power supply to eliminate noise generated by common power supplies. The PB23 has pull-down resistors making it work with any mixer.
