

AT2020USB+

Equipped with a USB output, the AT2020USB+ is designed for digitally capturing music or any acoustic audio source using your favorite recording software. The microphone offers the critically acclaimed, award-winning sound of the AT2020, with studio-quality articulation and intelligibility perfect for singer/songwriters, podcasters, voice-over artists, field recorders, and home studio recorders.

The AT2020USB+ features a built-in headphone jack with volume control that allows you to directly monitor your microphone signal with no delay. It also offers mix control that blends microphone and pre-recorded audio. The microphone's cardioid pickup pattern delivers excellent off-axis rejection, while its A/D converter with a 16-bit, 44.1/48 kHz sampling rate ensures extremely articulate sound reproduction. Audio-Technica's state-of-the-art design and manufacturing techniques ensure that the microphone complies with the company's renowned consistency and reliability standards.
