

Xpress 1024W

Going wireless with your ShowXpress light shows is easy thanks to the built-in dual mode Wi-Fi of Xpress 1024W. Connect to an existing Wi-Fi network or create your own –it's your call. Gain access to programming and triggering scenes with the free Live Mobile app (available on Apple and Android devices). With expandable DMX universes, harness the power of ShowXpress lighting control software and make changes on-the-fly. No PC required.

HIGHLIGHTS

- Self-contained, aluminum DMX interface for ShowXpress™ software
- Built-in Wi-Fi allows for wireless programming and scene triggering
- Connects to a computer wired or wirelessly
- Joins existing Wi-Fi networks (ST mode) or creates its own (AP mode)
- Controls two DMX universes and unlocks an additional ArtNet universe (3 universes total)
- Easily store and playback 1 show without a computer
- Compatible with Windows®, Mac OS X, Linux, Android, IOS, and Raspberry Pi systems
- Connect multiple interfaces to control additional universes
- Hot-swappable and automatically re-connects within seconds
- ESD and ground loop protection circuits
- Both outputs are electrically and optically isolated
