

U-Bracket

Thank you for purchasing the SBH U-Bracket. The kit should include the following:

4 x M10 - 1.5 x 45 cm

4 x washer

4 x locking washer

1 x U-Bracket

Below is an illustration of how the U-Bracket attaches to your Danley Sound Labs loudspeaker. The purpose of the kit is to add an adjustable mounting bracket to your loudspeaker.

-Start by removing the M10 bolt with a 6 mm hex key on the center of the left and right sides. -Place the bracket over the holes and secure tightly with 2 hex head bolts and washers. A second set of bolts are included to anchor the speaker to the bracket, preventing unwanted movement.
