

**Product Overview:**

The LW-203 Venue Awareness Kit effectively informs customers about the availability of ListenWIFI for streaming audio directly to smartphones. This comprehensive kit includes promotional materials, including posters, window clings, table tents, and leave-behind cards, designed to guide users in downloading the app and connecting to your venue’s audio.

Ideal for settings where smartphones are used to access audio, the kit complements any setup that includes Wi-Fi Audio Receivers for compliance or backup, with additional LW-307 Hearing Assistance Signage recommended.

**Highlights:**

- Great for applications where smartphones are the only method to access audio (no receivers being offered)
- Clearly communicates the availability of a ListenWIFI assistive listening system
- Multiple promotional materials and options
- Provides simple, easy to understand instructions for users
- QR code provides quick download of the ListenWIFI mobile app

**Includes:**

- Two (2) Display Posters – 305 x 457 mm (12 x 18 in.)
- Two (2) Window Clings – 229 x 127 mm (9 x 5 in.)
- Two (2) Table Tents – 102 x 152 mm (4 x 6 in.)
- One Hundred (100) Leave Behind Cards – 89 x 51 mm (3.5 x 2 in.)
