# Articulating Wall Mount

FOR 43" TO 75"+ DISPLAYS\*

Peerless-AV's SmartMount® Articulating Wall Mount series has been redesigned to accommodate larger displays, offering enhanced versatility and mounting options. The I-shaped adaptor centers displays, regardless of the VESA® pattern on the back, which eliminates hassle and extra costs when upgrading displays. The SA761PU extends displays up to 30.5" (774mm) or retracts to 3.0" (76mm) from the wall, granting increased swivel for large displays. Compatibility with In-Wall Box accessories (IB14X9-W, IB14X14-W) offers easier access to power or AV devices. Horizontal adjustment range is  $\pm 8"$  to center a display on a 16" stud-spaced wall. Meanwhile, the Hook-and-Hang™ feature produces simplified installation and One-Touch™ tilt technology provides an optimal viewing angle. Integrated cable management ensures a clean and professional installation.

- Universal mount accommodates 200 x 100 to 600 x 400mm VESA® mounting patterns
- $\pm 90^\circ$  of pivot allows for perfect display positioning
- Easy leveling  $\pm 5^\circ$  after display installation
- Adjustable  $15^\circ$  forward tilt and  $5^\circ$  backward tilt for finding the optimal viewing angle
- Stylish wall plate covers create a finished look and are easy to install and remove
- I-shaped adaptor plate helps avoid blocking connections on back of display
- Includes all necessary wall and display attachment hardware
- Mounts to wood stud, concrete, cinder or breeze block

Retracts to hold display  
3.0" (76mm) from the wall

Please visit [peerless-av.com/en-us/patents](http://peerless-av.com/en-us/patents) for patent information.

\*This display size range is simply a guideline for product selection. Displays larger than the screen size range may still be compatible as long as they fall within the VESA® pattern and max weight of the Peerless-AV® product.
