

ULTIMATE SUPPORT®

AIR-POWERED SPEAKER POLE SP-100B

The SP-100B speaker poles feature a new simple 1.37" (64 mm) subwoofer adapter. The adapter can also be removed to provide standard M20 threading. The SP-100B also includes an air-powered shock that helps lift your speaker. Born from years of research and development, the poles internal shock will lift speakers weighing 25 lbs. or less with no effort, and only requires one hand to raise speakers weighing more than 25 lbs.

SP-100B KEY FEATURES

AIR-POWERED LIFT ASSIST

An air-powered shock helps lift your speaker. The shock can lift 35 lbs. with very little additional assistance required. A die-cast fitting holds the speaker in place and a grip is added to help pull speaker down.

ADJUSTABLE SPEAKER ADAPTER

The top of the speaker pole has an adapter that fits both a 1.5" & 1.375" speaker mount.

DURABLE TUBING

Our speaker poles are made with over-sized tubing for greater strength and dependability.

KEEP SETUP SIMPLE
WITH OUR NEW
DUAL MODE ADAPTER

SUBWOOFER DUAL MODE ADAPTER

The bottom of the speaker pole features a 1.37" (64 mm) Subwoofer Adapter that removes to reveal a M20 threaded connection.
